

# TAKE ON A CRA REVIEW OR AUDIT WITHOUT THE COST OR STRESS BEING A CONCERN.

With Audit Shield, a CPA and their clients can take on a review or audit by the Canada Revenue Agency (CRA) or other provincial revenue authorities, side by side, responding in the most thorough way, without the cost or stress being a concern.

## Cover extends to:

- T1 Processing Reviews
- T2 Limited Reviews
- T2 Full Audits
- HST/GST/PST/QST
- Personal Tax
- Plus much more

## What is Audit Shield?

The premise of Audit Shield is very simple. It is a solution offered by CPA accounting firms to provide for the payment of professional fees incurred when their client is selected for a review, audit, inquiry, investigation, or examination of a filed return instigated by the CRA or other provincial revenue authorities.

That means that if a CPA accounting firm offers Audit Shield and a client takes up the offering, all professional fees up to a prescribed limit (with no deductible) are covered when the CPA represents the client in those CRA audit activity matters.

## What are the setup fees?

No CPA's business is built on budgeting for a client to be reviewed or audited, nor does the client expect those additional costs if they are selected for a review or audit. Audit Shield is a **no upfront cost solution** for CPA accounting firms to reduce that impact.

## Offering Audit Shield.

If you own or manage an accounting firm and would like to consider offering Audit Shield to your clients, then it is never too late to start.

Accountancy Insurance, sit behind the Audit Shield offering. For years Accountancy Insurance have offered Audit Shield in Australia and New Zealand, and have been offering Audit Shield in Canada since 2016.

Therefore, CPAs and their clients can feel satisfied that they are choosing a well-established provider with the best service offering available.
